

CH = CableHome; D= DOCSIS; PC=PacketCable

Beginning with Certification Wave 28, products may be awarded certification/qualification of multiple specifications through the CableLabs "combined certification program." Note that combined certification will not apply retroactively to any product certified prior to certification Wave 28, unless that product is submitted for recertification

Disclaimer: The model number, software version and hardware version information is provided by the vendor when submitting product for certification and CableLabs assumes no responsibility for accuracy or completeness of that information.

Report run on 05/07/2008
